L a n d s c a p e P r o d u c t s

2 0 2 5

Ultimate comfort: Create unforgettable memories with family and friends in a serene outdoor seating area, where the beauty of nature and cozy relaxation come together perfectly.

Mondrian Plus 60 Small Rectangle Paver Rockland Black - P 44
Mega Melville Plus Step Range Scandina Grey - P 87

Decades of *expertise and innovation*

A Big Family

Oldcastle APG has over 8,500 family members throughout our network of facilities across North America. With over 200 locations, we take pride in being the largest producer of architectural building products on the continent. As industry leaders, we drive the trends and set the standards for quality and innovation.

Locally Made

With nine plants across Quebec and Ontario, Permacon specializes in manufacturing high-quality concrete products crafted to meet the evolving needs of today and tomorrow.

Continuous Innovation

Permacon continually refines its processes to deliver products that embody the latest in innovation and excellence.

resources.

Melia

A textured collection that
transports you

Inspired by the gentle waves of water and sand, Melia's finely embossed texture captures the essence of nature's purity.

Walking on these pavers and slabs evokes the serene feeling of strolling along a sunlit beach - creating endless moments of relaxation and harmony.

DuraFusion Colours

Oasis | Marbella | Hickory

Redefine your space with the elegance and tranquillity of Melia, where refinement meets nature's simplicity.

Our *New* Products

Melia DuraFusion Slab

Transform your outdoor space with the Melia DuraFusion Slab, inspired by the natural elegance of fine sandy beaches. Its modular format is designed to create a welcoming and harmonious landscape. P 34

Melia 18 x 36 DuraFusion Slab

Unlock limitless design potential with the Melia 18 x 36 DuraFusion Slab. Its single-size, large format offers flexibility for creating bold and innovative layouts. P 34

Melia 6 x 6 DuraFusion Paver

Add a touch of texture to your landscaping with the Melia 6 x 6 DuraFusion Paver. This small square paver perfectly complements the Melia collection, offering a stylish accent to any design. P 34

Textures and finishes *for all styles*

Create your dream outdoor space with our landscaping products, available in a wide range of textures, finishes and colours.

Explore our various collections, including smooth and textured options.

SMARTSAND® with NextGel™ TECHNOLOGY

- Optimizing interlocking paver jointing
- Ideal for 1/16 in. (1.6 mm) to 1 in. (2.5 cm) wide joints
- Suitable for pedestrian and low-traffic areas (driveways, sidewalks and terraces)

SmartSand is offered by Permacon in **Tan, Urban Grey or Granite**

HP NextGel

- Optimizing jointing of concrete pavers and slabs, and porcelain tiles (only if mechanical compaction is possible)
- Appropriate for false joints
- Ideal for 1/16 in. (1.6 mm) to 2 in. (5 cm) wide joints
- Suitable for high-humidity environments, heavy-sloped and heavy traffic areas

HP NextGel is offered by Permacon in **Tan, Urban Grey, Ivory, Black or Granite**

NOCO NO COMPACTION

- Optimizing jointing of concrete pavers, highly textured surfaces, large slabs and porcelain tiles
- Appropriate for false joints
- Ideal for 1/4 in. (6 mm) to 2 in. (5 cm) wide joints with up to 4 in. (10 cm) wide intersections
- Perfect alternative to mortar, stone dust and polymeric stone dust

Noco is offered by Permacon in **Desert Tan or Iron Grey**

EDGE BOND

EDGE BOND™ is a fortified hardscape concrete edging powered with NextGel™—the FASTEST & EASIEST application on the market.

STORM

A multi-weather jointing compound for pavers, natural stones, permeable slabs, and outdoor porcelain.

Ideal for joint width from 1/8 to 2 in. (3 to 50 mm) with intersecting spaces up to 4 in. (100 mm).

MAINTENANCE

Protect your investment

permacon.ca

50-Year Warranty

Landscape Products

Permacon's 50-year warranty applies to landscape and masonry products including Suretouch intended for residential use¹. This warranty statement affirms that products manufactured by Permacon meet the requirements of CSA (Canadian Standard Association) and ASTM (American Society for Testing and Materials) standards.

For details regarding commercial applications, please refer to our institutional, commercial and industrial warranty.

Permacon guarantees that, as of the date of delivery, its concrete products are free from manufacturing defects. Provided that the conditions set forth below are met, Permacon guarantees the structural integrity of the concrete in its landscaping and masonry products for a period of 50 years from the date of the product's purchase. The warranty applies to normal, non-abusive use of the product. To preserve the original appearance of your products, we recommend that you consult our **Landscape Maintenance Guide** available on our website.

IN ALL CASES DETAILED BELOW, THE WARRANTY IS LIMITED TO THE PRODUCTS' MARKET VALUE.

How do I make a claim?

permacon.ca/en/warranty/

Proof of purchase is required to proceed with a claim request. No claims will be accepted without proof of purchase.²

All claims must be reported within 15 days of the discovery of a product's defect. To validate a claim, a Permacon representative will arrive to inspect the defective products in order to confirm whether the claim is eligible. Therefore, it is essential to provide Permacon with the necessary access to inspect and take photos of the affected products.

This warranty is the only one that is presently offered. Because Permacon continually improves and modifies its products, it may alter and discontinue products at any time, and therefore may replace warranty-covered products with products of similar quality or offer monetary compensation if the products under warranty have been discontinued or are no longer on the market while the warranty is active.

In the event that a product is found to be non-compliant by Permacon or an authorized representative of the company, and in order to proceed with compensation, Permacon will take into account the number of months during which the

landscape or masonry products were in the possession of the owner or their contractor, up to the date of the claim, and will prorate the amount of the payment or replacement to be made accordingly.

For example, if the purchaser makes a warranty claim in the last month of the 10th year of the warranty (i.e., the 120th month), the manufacturer, at its sole discretion, shall either:

- Provide a replacement for the product in question if still available (only the defective product will be replaced);
- Return 480/600 of the price paid for the products to the owner. No labour, transportation, or other compensation will be covered by Permacon.

Transferability

The warranty is transferable. Proof of warranty registration will still be required in the event of a claim. The prorated period will be based on the 50-year warranty period remaining as an assignee, if the purchaser transfers the warranty to a subsequent owner, as described above.

¹ The following locations are defined as residential: family dwelling of five units or less, single family homes, garden suites, or townhouses.

² The following documents are considered valid proof of purchase: invoices directly from an authorized Permacon distributor, or invoice from a landscape contractor, general contractor, mason, or home builder.

Exclusions

A landscape or masonry product installed on an area of more than **100 square feet** confirms the acceptance of the product received on the job site and that no claim can be made to Permacon regarding the colour, size, or texture of the product.

This warranty excludes all products not supplied by Permacon, as well as any defects, failures, or damages that may result from the actions listed below:

- Contact with chemicals or cleaning products;
- Damage caused by pressure washers;
- Improper installation or other construction activities that do not comply with the installation standards established by ICPI, NCMA or IMQ, the National Building Code or the installation methods and tips recommended by Permacon. The installation guides provided by Permacon represent certain installation situations and are not exhaustive. It is therefore strongly recommended that you consult a qualified professional to ensure the proper installation of Permacon products on a specific job site;
- Defective design or construction resulting in sagging, shifting, or failure;
- Breakage due to shock, impact, or excessive load during handling, use, or transportation;
- Natural disaster or other uncontrollable event;
- Breakage and damage to products caused by soil movement or building movement as well as misuse of construction, compaction, or snow removal equipment. The warranty does not cover surface deterioration caused by the misuse of sodium chloride (NaCl) to de-ice pavers, slabs, or steps;
- The use of sodium chloride (NaCl) on the following products:
 - Step Valentia;
 - Valentia Block;
- Be.OnStone, Mirage and Techniseal products sold by Permacon.

Installation

When installing masonry products, all work must be cleaned to remove any residues and contaminants left on the stone or brick. Permacon accepts no responsibility for stains and colour changes caused by installation residue or the consequences of cleaning these residues.

Colour

The presence of natural ingredients used in the manufacturing process varies from one product to another. Therefore, the product received on the job site will not be completely identical to the products displayed in our commercial presentations (catalogs, samples, displays). Any difference in colour will not be covered by the guarantee.

Photos of our products in landscape and masonry brochures, as well as in displays such as masonry panels and landscape racks at our distributors, are not an exact representation of the products that will be delivered to the job site. Permacon offers a variety of products with different colours to reproduce the appearance of natural stone. It is therefore strongly recommended that you view several products directly from your authorized Permacon distributor to see all available colours.

It is the purchaser's responsibility to approve the products (and their colour) delivered to the job site prior to installation to confirm satisfaction. It is also recommended to mix products from different pallets received on the job site. Since variations in colour shades are a natural phenomenon, Permacon does not guarantee colour uniformity between different pallets on the same job site. Product installation constitutes acceptance.

Polymeric film

A whitish polymeric film can be found on the surface of Permacon's products. This is the result of an inadequate use of polymeric sand. Improper cleaning of slabs and pavers prior to the application of water on the product surface can cause this whitish polymeric film. This film does not affect the structural integrity of the product. Permacon cannot be held responsible for this phenomenon, which is not covered by the warranty.

Efflorescence

White traces on the surface of the product are caused by a natural phenomenon called efflorescence. More visible on darker products, efflorescence affects neither the intrinsic technical qualities nor the structural integrity of Permacon's products. The possible appearance of efflorescence cannot be the subject of any guarantee. In most cases, efflorescence disappears by itself over time.
